PRELIMINARY INFORMATION

The Rehab Week Zurich organisers cordially invite you to join three international conferences in the field of Rehabilitation Science and Engineering. The Rehab Week Zurich will be an excellent means for showcasing your products and technology to researchers, scientists, clinicians, therapists, and users. With more than 800 participants expected, we enthusiastically encourage you to consider sponsoring, exhibiting and participating in the Rehab Week Zurich 2011.

ICORR2011 International Conference on Rehabilitation Robotics June 29 - July 1

The ICORR is a biennial international IEEE conference that highlights the latest results from world leading research labs and clinics in the fields of rehabilitation robotics. A special focus will be on clinical evaluation and promotion of interaction between engineers, clinicians and therapists. The conference will also include patient and caregiver testimonials as well as sessions about standardization of technology, technology transfer, and assessment tools.

INRS2011 International Neurorehabilitation Symposium 2011 June 27 - 29

The INRS is an international conference organized in Zurich since 2004. World class clinicians present and discuss the progress in the field of neurorehabilitation. The focus of the conference will be on new technologies in neurorehabilitation, the latest evidence based research and hands-on workshops.
