Confirmed Keynote

Olaf Blanke EPFL Lausanne
Skip Rizzo University of Southern California
Tim Lühn Technical University Munich
Zey Rymer Rehabilitation Institute of Chicago
Hugh Hunsberg Massachusetts Institute of Technology
Erik Winstein of Southern California

Local organization committee:

ICORR: Robert Riener, Roger Gassert
INRS: Gery Colombo, Andreas Luft, Silvestro Micera
ICVR: Kynan Eng, Tamar Weiss, Daniel Kiper

Conference Venue: Science City

ETH Zurich is one of the most prestigious scientific and technical universities in the world. It provides an ideal environment for education and research. Since 2003, ETH has been developing its Science City university campus on the Hönggerberg site. Science City is a model university campus for the 21st century, bringing together science, business and the general public in a vibrant district.

Welcome

In the summer of 2011 three international conferences in the field of Rehabilitation Science and Engineering will join forces for a week of intensive cross-disciplinary knowledge transfer. The International Conference on Rehabilitation Robotics, INRS 2011, the International Symposium on Neurorehabilitation, INRS 2011, and the International Conference on Virtual Rehabilitation, ICVR 2011, will host clinicians and engineers in different research areas. This great event will take place in Zurich, Switzerland, from June 27 until July 1, 2011.

ICORR 2011

The ICORR is a biannual international IEEE conference that highlights the latest results from world leading research labs and clinics in the field of rehabilitation robotics. A special focus will be on clinical validation and patient and caregiver testimonials as well as discussions about standardization of technology, assessment tools, and technology transfer.

INRS 2011

The INRS is an international conference organized in Zurich since 2004. World class clinicians present and discuss the progress in the field of neurorehabilitation, the latest evidence based research results and hands-on workshops.

ICVR 2011

The ICVR is a biannual international conference that provides an overview of novel technological and clinical developments in the field of virtual reality and augmented reality applied to rehabilitation. The conference will focus in particular on clinical validation, low-cost systems, avatars and Internet-enabled tele-rehabilitation.

Welcome to Zurich

A cosmopolitan city in the heart of Europe, Zurich is surrounded by beautiful mountains, located on a clear lake with rich cultural influences and diversity. Come and enjoy the uniquely Swiss hospitality. For travel information see www.zuerich.com
